PRODUCT CATALOG

Wholesale Medical &
Surgical Supplies

WWW.SARVAGUNENTERPRISES.COM

Welcome to Our Product Catalog

Sarvagun Enterprises

Wholesale supplier of medical and surgical equipment for hospitals, clinics, diagnostic centers, and healthcare distributors.

This catalog presents a curated range of quality-assured medical consumables, surgical supplies, orthopedic instruments, hospital infrastructure products, medical injectables, and hospital chemicals.

About Us

Sarvagun Enterprises is a trusted wholesale supplier of medical and surgical equipment, supporting healthcare providers with reliable sourcing and consistent supply. We source products from leading healthcare brands such as BD, B. Braun, Romsons, Mindray, BPL Medical, Fisher & Paykel, and other reputed manufacturers.

Our focus is on delivering quality-assured products at competitive wholesale pricing while ensuring prompt enquiry support and transparent business practices. We work closely with hospitals, clinics, and distributors to meet routine and bulk procurement requirements efficiently.

Supporting healthcare procurement with quality and reliability.

Product Categories

MEDICAL CONSUMABLES

Gloves, masks, IV sets, and daily-use hospital consumables.

Pg 5-9

ORTHOPEDIC INSTRUMENTS

Orthopedic surgical instruments and tools for bone and joint procedures.

Pg 16-27

SURGICAL & OT SUPPLIES

Surgical instruments, blades, OT equipment, and accessories.

Pg 10-15

HOSPITAL INFRASTRUCTURE

Hospital beds, wheelchairs, stretchers, & sterilization equipment.

Pg 28-31

Product Categories

MEDICAL INJECTABLES

Essential hospital injectables supplied for routine and emergency medical use across healthcare facilities.

Pg 32-38

HOSPITAL CHEMICALS

Disinfectants, sterilization chemicals, and cleaning solutions designed for safe and effective hospital hygiene.

Pg 39-44

Medical Consumables

Sarvagun Enterprises supplies a wide range of medical consumables used in daily hospital and clinical operations. Our product range includes gloves, masks, syringes, IV sets, dressings, PPE items, and other essential disposable products required across multiple healthcare departments.

Products are sourced to ensure consistent quality, safety standards, and reliable availability, supporting routine usage and bulk procurement needs. Through dependable wholesale supply, we assist hospitals and healthcare providers in maintaining uninterrupted operational efficiency.

IV Cannula

Sterile IV Cannula for intravenous therapy.

[Contact for Quotation](#)

IV Infusion Set

Standard IV infusion set with flow regulator.

[Contact for Quotation](#)

Adhesive Plasters

Hypoallergenic adhesive plasters for wound protection.

[Contact for Quotation](#)

Bandage Roll

Cotton bandage roll for dressing retention.

Bio Medical Waste Bag

Color-coded bags for safe disposal of medical waste.

Blood Collection Tube

Vacuum blood collection tubes for laboratory testing.

Blue Latex Examination Gloves

Powder-free blue latex gloves for examination.

Absorbent Cotton Roll

Highly absorbent sterile cotton roll.

Disposable Surgical Gown

Fluid-resistant disposable surgical gown.

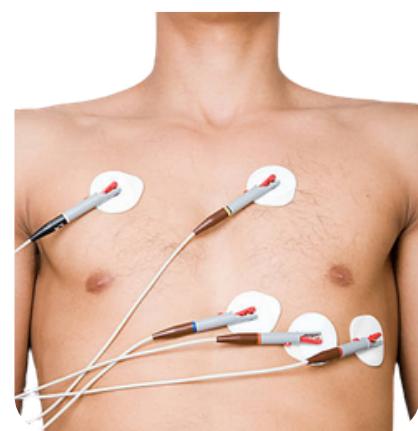

Disposable Syringes

Single-use sterile syringes with needle.

Standard Disposable Gown

Protective gown for general medical use.

ECG Electrodes

Disposable ECG electrodes for cardiac monitoring.

3-Ply Face Masks

3-ply protective face masks with nose clip.

Glucometer Test Strips

Test strips for blood glucose monitoring.

Feeding Tube

Nasogastric feeding tube for enteral nutrition.

Foley Catheter

Sterile silicone coated foley catheter.

Medical Forceps

Stainless steel forceps for medical procedures.

Gauze Swabs

Sterile gauze swabs for wound cleaning.

Hypodermic Needle

Sharp hypodermic needles for injections.

N95 Respirator Mask

High-filtration N95 mask for respiratory protection.

Blood Lancets

Sterile lancets for blood sampling.

Nasal Cannula

Soft nasal cannula for oxygen delivery.

Needle Burner/Destroyer

Safety box for destroying used needles.

Nebulizer Kit

Complete mask and tubing kit for nebulizers.

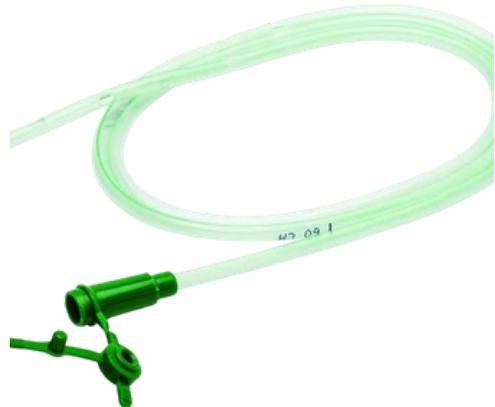

Oxygen Mask

Standard face mask for oxygen therapy.

Complete PPE Kit

Full body personal protective equipment kit.

Ryles Tube (Standard)

Nasogastric tube for suction or feeding.

Ryles Tube (Advanced)

Advanced material ryles tube.

Sharps Container

Puncture-resistant container for sharps disposal.

Scalp Vein Set

Butterfly needle set for vein access.

Shoe Covers

Disposable protective shoe covers.

Sterile Dressing Pad

Absorbent pad for wound dressing.

Surgical Blade

Carbon steel sterile surgical blades.

Surgical Cap

Disposable cap for hair coverage.

Absorbable Sutures

Surgical sutures that break down naturally.

White Latex Gloves

Standard white latex examination gloves.

Surgeon Cap (Tie-back)

Traditional tie-back surgeon cap.

Non-Absorbable Sutures

Permanent surgical sutures like nylon or silk.

Urine Collection Bag

Graduated urine collection bag.

Surgical & OT supplies

Sarvagun Enterprises supplies a comprehensive range of surgical and OT supplies used across hospitals, clinics, and surgical centers. Our product range includes surgical instruments, blades, sutures, drapes, and essential operation theatre accessories required for routine and specialized procedures.

Products are sourced to ensure consistent quality, precision, and dependable availability, supporting institutional requirements and bulk procurement needs. Through structured wholesale supply, we assist healthcare facilities in maintaining smooth and efficient surgical operations.

Arthroscopy Unit

Complete arthroscopy unit for joint surgeries.

[Contact for Quotation](#)

Breathing Circuits

Disposable breathing circuits for anesthesia.

[Contact for Quotation](#)

Skin Staplers

Disposable skin staplers for wound closure.

[Contact for Quotation](#)

Endoscopy System

High-definition endoscopy system for diagnostic procedures.

Electrosurgical Unit

Absorbent pad for wound dressing.

ENT Instruments

Specialized instruments for Ear, Nose, and Throat surgery.

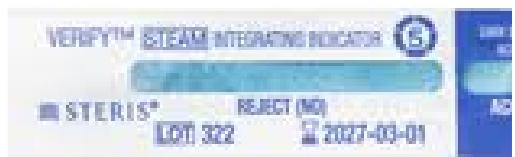

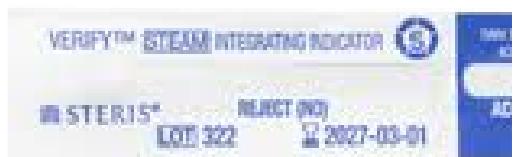

Dressing Pads

Sterile dressing pads for wound care.

C-Arm Machine

Mobile C-Arm machine for real-time X-ray imaging.

Chemical Indicators

Chemical indicators for sterilization monitoring.

Labeling System

System for labeling sterilization packs.

Instrument Trolley

Stainless steel trolley for surgical instruments.

Enzymatic Cleaners

Enzymatic solution for cleaning surgical instruments.

Biological Indicators

Indicators for verifying sterilization processes.

Instrument Containers

Absorbent pad for wound dressing.

ETO Sterilizer

Carbon steel sterile surgical blades.

Stethoscope

Disposable cap for hair coverage.

Laminar Airflow

Laminar airflow system for sterile operation theaters.

Laryngeal Mask Airway

Standard white latex examination gloves.

Gynecology Instruments

Set of instruments for gynecological procedures.

Surgical Operating Table

Permanent surgical sutures like nylon or silk.

Laryngoscope

Laryngoscope with various blade sizes.

Laparoscopic Tower

Complete laparoscopic tower with camera and light source.

Lidocaine Injection

Absorbent pad for wound dressing.

Bupivacaine Injection

Long-acting local anesthetic bupivacaine.

Mayo Stand

Adjustable Mayo stand for instrument placement.

Nasal Airways

Soft nasal airways for maintaining airway patency.

Oral Airways

Guedel oral airways in assorted sizes.

Neurosurgery Instruments

Precision instruments for neurosurgical procedures.

Sponge Holding Forceps

Sponge holding forceps for prepping and clamping.

Probe and Director

Surgical probe and director set.

Scalpel Handles

Reusable stainless steel scalpel handles.

Electronic BP Apparatus

Digital blood pressure monitoring machine.

Spill Kits

Medical spill kits for hazardous fluid cleanup.

Staple Remover

Sterile staple remover for extracting skin staples.

Storage Cabinet

Medical grade storage cabinet for supplies.

Surgical Microscope

Standard white latex examination gloves.

Temperature Probe

Temperature probe for patient monitoring.

Surgical Sponges

Absorbent surgical sponges for fluid control.

Sterile Wraps

Sterile wraps for instrument trays.

Surgical Tapes

Hypoallergenic surgical tapes for dressing retention.

Manual BP Apparatus

Aneroid manual blood pressure apparatus.

Towel Clips

Standard towel clips for securing drapes.

Urology Instruments

Specialized instruments for urological surgeries.

Maternity Surgical Drape

Sterile drape kit for maternity procedures.

Warming Blanket

Patient warming blanket to prevent hypothermia.

OT Light

Ceiling-mounted surgical operating light.

Surgical Retractor

Hand-held retractor for tissue exposure.

Orthopedic Instruments

Sarvagun Enterprises supplies a wide range of orthopedic instruments used in bone and joint surgical procedures across hospitals and healthcare facilities. Our product range includes essential surgical tools and precision instruments required for orthopedic operations and institutional clinical applications.

Products are sourced to ensure consistent quality, durability, and dependable availability, supporting bulk and wholesale procurement requirements for hospitals, surgical centers, and authorized healthcare providers.

3D Fluoroscopy

Advanced 3D fluoroscopy imaging system for orthopedic surgery.

[Contact for Quotation](#)

Acetabular Reamers

Precision acetabular reamers for hip replacement surgery.

[Contact for Quotation](#)

Alignment Rods

Surgical alignment rods for accurate implant positioning.

[Contact for Quotation](#)

Arthroscope

High-definition arthroscope for minimally invasive joint surgery.

Antibiotic Cement Beads

Antibiotic-impregnated cement beads for infection management.

Bone Curettes

Surgical bone curettes for scraping and cleaning bone.

Bone Cement (PMMA)

Polymethyl methacrylate (PMMA) bone cement for implant fixation.

Bohler Braun Frame

Bohler Braun frame for skeletal traction and lower limb elevation.

Bone Graft Harvesters

Instruments for harvesting autologous bone grafts.

Bone Holding Forceps

Heavy-duty bone holding forceps (Lane's, Verbrugge).

Cancellous Screws

Cancellous screws for fixation in spongy bone.

Bone Mill

Bone mill for crushing bone into graft material.

Bone Plates

Assorted bone plates including DCP, LC-DCP, and LCP.

Burr System

High-speed burr system for bone shaping and cutting.

Cement Gun

Cement gun for precise application of bone cement.

Cement Restrictor

Cement restrictor to contain bone cement in the medullary canal.

Cerclage Wires

Stainless steel cerclage wires for fracture fixation.

Clamps

Surgical clamps for orthopedic procedures.

Cup Inserter

Instrument for inserting acetabular cups.

Compressors

Compression instruments for bone fixation.

Connecting Rods

Connecting rods for external fixation systems.

Cutting Blocks

Precision cutting blocks for joint replacement surgery.

Depth Gauge

Depth gauge for measuring screw hole depth.

Distractors

Joint distractors for creating space during surgery.

Drill Bits

Assorted medical-grade drill bits

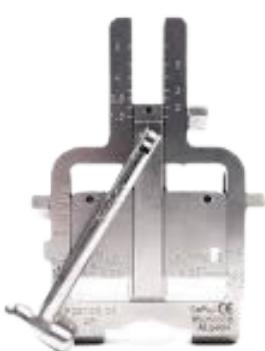

End Caps

End caps for intramedullary nails.

Femoral Rasps

Femoral rasps for preparing the femoral canal.

Femoral Sizing Guides

Guides for sizing femoral components.

Fine Forceps

Delicate forceps for fine tissue handling.

Fluid Pump

Arthroscopic fluid pump for joint distension.

Graft Packers

Instruments for packing bone graft.

Fracture Table Attachments

Attachments for orthopedic fracture tables.

Graspers

Surgical graspers for tissue manipulation.

Guide Wires

Sterile guide wires for cannulated screws and nails.

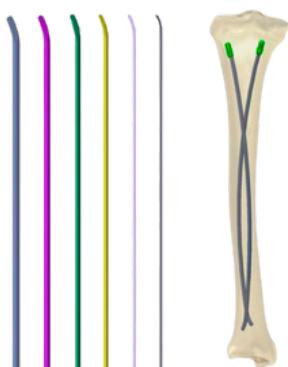

Hand Drill

Manual hand drill for orthopedic procedures.

Hohmann Retractors

Hohmann retractors for tissue retraction.

Intramedullary Nails

IM nails for femur, tibia, and humerus fractures.

Impactors

Impactors for seating implants.

K-Wire Inserters

Instruments for inserting Kirschner wires.

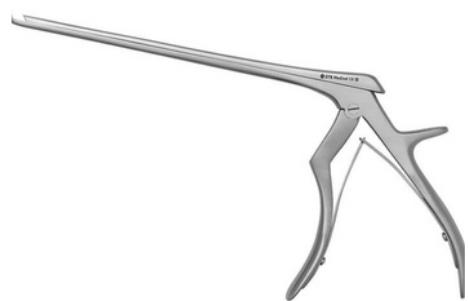

K-Wires

Kirschner wires in various sizes.

Lowman Bone Clamp

Lowman bone clamp for fracture reduction.

Kerrison Rongeurs

Kerrison rongeurs for bone biting and laminectomy.

Locking Screws

Locking screws for locking plates.

Orthopedic Mallet

Surgical mallet for impacting instruments.

Micro Needle Holders

Micro needle holders for fine suturing.

Mini Fragment Set

Instrument set for mini fragment fixation.

Mini Bone Saw

Miniature bone saw for small bone surgery.

Nail Inserter

Instrument for inserting IM nails.

Navigation System

Computer-assisted surgical navigation system.

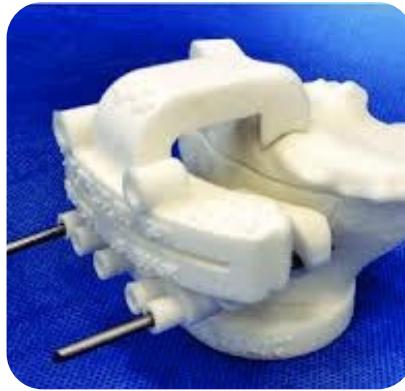

Pedicle Screw System

Spinal pedicle screw fixation system.

Nerve Retractors

Delicate retractors for nerve protection.

Oscillating Saw

Powered oscillating saw for bone cutting.

PSI Guides

Patient-specific instrumentation guides.

Patellar Clamp

Clamp for stabilizing the patella.

Periosteal Elevators

Elevators for lifting periosteum from bone.

Probes

Surgical probes for exploring wounds and cavities.

Pulse Lavage System

Pulse lavage system for wound irrigation.

Bone Punches

Bone punches for creating holes or biopsies.

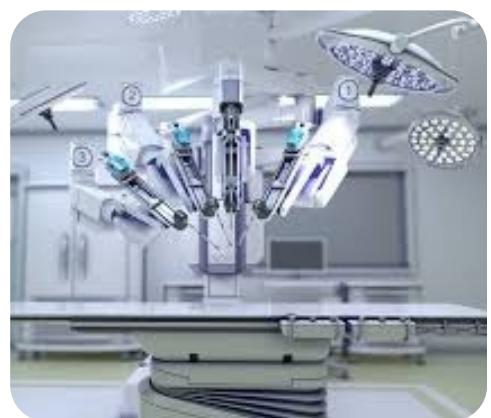

RF Ablation Probe

Radiofrequency ablation probe for tissue coagulation.

Bone Reamers

Rreamers for enlarging the medullary canal.

Reciprocating Saw

Powered reciprocating saw for deep bone cutting.

Reduction Levers

Levers for manipulating bone fragments.

Robotic Surgery System

Advanced robotic system for orthopedic surgery.

Reconstruction Plates

Malleable reconstruction plates.

Rod Benders

Instruments for bending surgical rods.

Rod Cutters

Heavy-duty cutter for surgical rods.

Schanz Screws

Schanz screws for external fixation.

Self-Retaining Retractors

Retractors that hold tension automatically.

Screwdrivers (AO)

AO standard surgical screwdrivers.

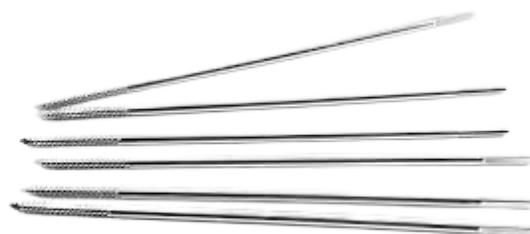

Shaver System

Arthroscopic shaver system for tissue resection.

Small Osteotomes

Small osteotomes for precise bone cutting.

Steinmann Pins

Stainless steel Steinmann pins for skeletal traction.

Sterilizable Batteries

Batteries for powered surgical instruments.

Stem Inserter

Instrument for inserting femoral stems.

Sterile Drapes

Sterile drapes specially designed for limb surgery.

T-Handles

T-handle instruments for manual torque.

Traction Weights

Spinal pedicle screw fixation system.

Tap Set

Bone tap set for cutting threads in bone.

Targeting Jig

Targeting jig for locking nails.

Tibial Reamers

Ramers specialized for the tibia.

Tourniquet Cuffs

Reusable or disposable tourniquet cuffs.

Tourniquet Machine

Digital pneumatic tourniquet system.

Towel Clips

Heavy-duty towel clips for securing drapes.

Traction Pulleys

Pulleys for orthopedic traction beds.

Wire Cutters

Cutters for orthopedic wires and pins.

Wire Tensioner

Instrument for tensioning wires.

Wire Twister

Tool for twisting and securing wires.

Wound Retractors

Retractors for holding wounds open.

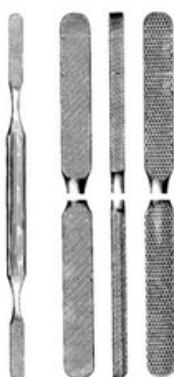

Surgical Wrenches

Wrenches for tightening orthopedic implants.

Awls

Bone awls for creating pilot holes.

Bone Files and Rasps

Files and rasps for smoothing bone surfaces.

Bone Cutter

Surgical bone cutter.

Bone Saw

Manual or powered bone saw.

Bone Nibbler

Bone nibbler for biting away small bone pieces.

Chisels

Surgical chisels for bone cutting.

Cortical Bone Screw

Screws designed for thick cortical bone.

Gigli Saw

Flexible Gigli wire saw with handles.

Osteotomes

Standard osteotomes for osteotomy procedures.

Reduction Forceps

Forceps for holding fracture fragments.

Rongeurs

Strong rongeurs for gouging out bone.

Hospital Infrastructure

Sarvagun Enterprises supplies a range of hospital infrastructure products including hospital beds, stretchers, wheelchairs, patient trolleys, and essential facility equipment required for healthcare institutions. Our product range supports clinic setups, ward requirements, and institutional procurement needs across medical facilities.

Products are sourced to ensure consistent quality, durability, and dependable availability for bulk and wholesale supply to hospitals and healthcare providers.

Medical Centrifuge

High-speed centrifuge for laboratory sample separation.

[Contact for Quotation](#)

Hospital Bed

Adjustable hospital bed for patient comfort and care.

[Contact for Quotation](#)

IV Fluid Stand

Durable stainless steel IV stand with wheels.

[Contact for Quotation](#)

Anesthesia Machine

Advanced anesthesia workstation for surgical procedures.

Oxygen Concentrator

High-efficiency oxygen concentrator for continuous oxygen therapy.

Syringe Pump

Precision syringe pump for controlled medication delivery.

Ambu Bag

Manual resuscitator for emergency ventilation.

Autoclave Sterilizer

Steam sterilizer for medical equipment disinfection.

Medical Backup Power

Reliable power backup system for critical medical equipment.

Biochemistry Analyzer

Automated analyzer for clinical biochemistry tests.

Defibrillator

Life-saving defibrillator for cardiac emergencies.

Digital Thermometer

Fast and accurate digital thermometer.

Adult Digital Scale

High-capacity digital weighing scale for adults.

ECG Machine

12-lead ECG machine for cardiac monitoring.

ECG Meter

Portable ECG meter for quick diagnostics.

Glucometer

Portable blood glucose monitoring system.

Hematology Analyzer

Automated hematology analyzer for blood testing.

Medical Refrigerator

Temperature-controlled refrigerator for medicine storage.

Medical Microscope

High-precision binocular microscope for lab use.

Nebulizer

Compressor nebulizer for respiratory therapy.

Operating Table

Hydraulic operating table for surgical procedures.

Oxygen Cylinder

Medical grade oxygen cylinder.

Patient Monitor

Multi-parameter patient monitor for vital signs.

Pulse Oximeter

Accurate pulse oximeter for oxygen saturation monitoring.

Stretcher

Emergency stretcher trolley with wheels.

Suction Machine

Heavy-duty suction machine for fluid aspiration.

X-Ray Machine

Digital X-Ray machine for radiography.

Ultrasound Machine

Digital ultrasound machine for diagnostic imaging.

Ultrasonic Cleaner

Ultrasonic cleaner for medical instrument sterilization.

Wheelchair

Foldable wheelchair for patient mobility.

Medical Injectables

Sarvagun Enterprises supplies a wide range of medical injectables for routine and emergency clinical use across healthcare facilities. Our product range includes essential hospital injectables commonly required for general medicine, surgical procedures, critical care support, and institutional requirements.

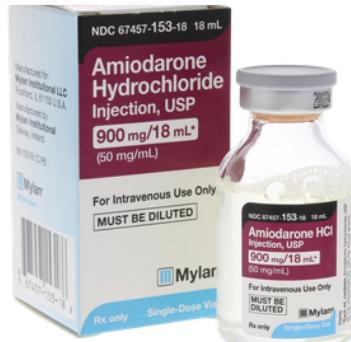

Products are sourced to ensure consistent quality, reliable availability, and suitability for bulk and wholesale procurement by hospitals, clinics, and authorized healthcare providers.

Adrenaline Injection

Emergency adrenaline injection for anaphylaxis.

[Contact for Quotation](#)

Amiodarone

Antiarrhythmic medication for cardiac emergencies.

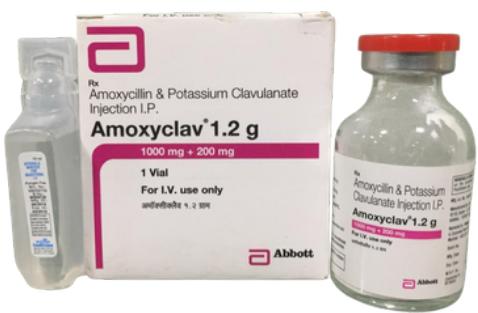

[Contact for Quotation](#)

Atropine Injection

Anticholinergic medication for bradycardia.

[Contact for Quotation](#)

Amoxicillin + Clavulanic Acid

Broad-spectrum antibiotic combination.

Bupivacaine

Long-acting local anesthetic.

Caffeine Citrate Injection

Bone tap set for cutting threads in bone.

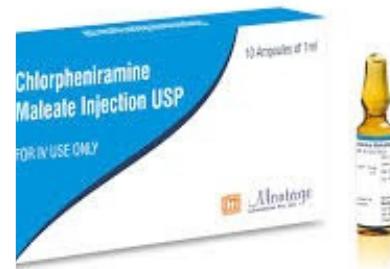

Calcium Gluconate

Calcium supplement for hypocalcemia.

Ceftriaxone 1g

Third-generation cephalosporin antibiotic.

Chlorpheniramine

Antihistamine for allergic reactions.

Dexamethasone Injection

Corticosteroid for inflammation and allergies.

Dextrose 5% Solution

Intravenous glucose solution.

Dextrose Normal Saline

Combined dextrose and saline solution.

Diazepam Injection

Benzodiazepine for seizures and anxiety.

Diclofenac Injection

NSAID for pain and inflammation.

Dopamine Injection

Vasopressor for shock management.

Enoxaparin Injection

Low molecular weight heparin anticoagulant.

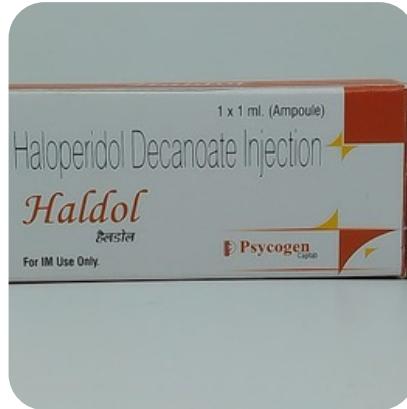

Furosemide Injection

Loop diuretic for fluid overload.

Gentamicin Injection

Aminoglycoside antibiotic.

Hydrocortisone Sodium Succinate

Injectable corticosteroid for acute conditions.

Haloperidol Injection

Antipsychotic medication.

Heparin Injection

Anticoagulant for thrombosis prevention.

Hydrocortisone

Corticosteroid for adrenal insufficiency.

Insulin Regular

Short-acting insulin for diabetes.

Iron Sucrose Injection

Intravenous iron supplement.

Ketamine Injection

Dissociative anesthetic.

Levetiracetam

Antiepileptic medication.

Lignocaine Injection

Local anesthetic and antiarrhythmic.

Magnesium Sulphate Injection

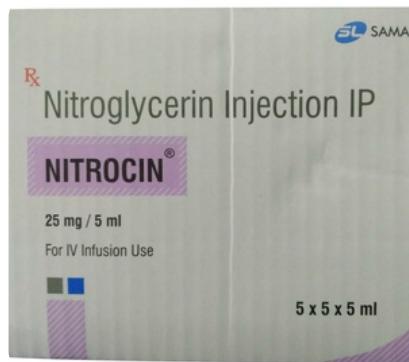

Treatment for eclampsia and hypomagnesemia.

Meropenem Injection

Broad-spectrum carbapenem antibiotic.

Metoclopramide

Antiemetic and prokinetic agent.

Midazolam Injection

Benzodiazepine for sedation.

Nitroglycerin

Vasodilator for angina and heart failure.

Noradrenaline Injection

Vasopressor for severe hypotension.

Normal Saline 0.9%

Isotonic saline solution for hydration.

Ondansetron

Antiemetic for nausea and vomiting.

Oxytocin Injection

Hormone for labor induction.

Pantoprazole Injection

Proton pump inhibitor for acid reduction.

Paracetamol Injection

Broad-spectrum carbapenem antibiotic.

Phenytoin Injection

Antiepileptic for seizure control.

Potassium Chloride

Electrolyte replacement for hypokalemia.

Propofol Injection

Intravenous anesthetic agent.

Ringer Lactate Solution

Balanced crystalloid solution.

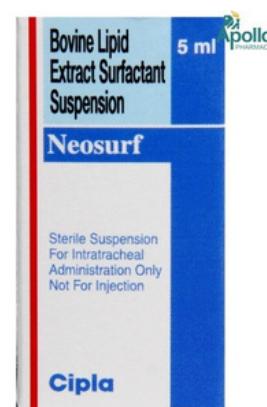

Sodium Bicarbonate

Alkalizing agent for acidosis.

Streptokinase

Thrombolytic for clot dissolution.

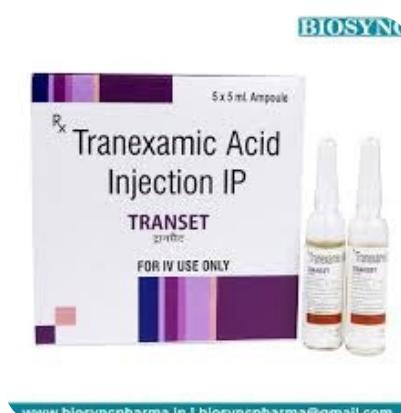

Surfactant Injection

Lung surfactant for neonatal respiratory distress.

Tramadol Injection

Opioid analgesic for moderate pain.

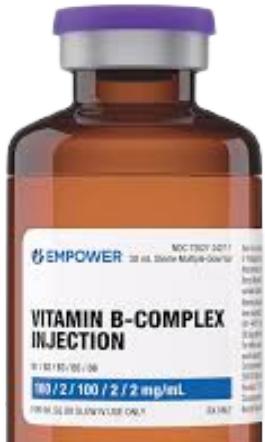

Tranexamic Acid

Antifibrinolytic for bleeding control.

Vancomycin Injection

Glycopeptide antibiotic for resistant infections.

Vitamin B-Complex Injection

B-vitamin supplement injection.

Vitamin K Injection

Vitamin K for coagulation disorders.

Hospital Chemicals

Sarvagun Enterprises supplies a comprehensive range of hospital chemicals including disinfectants and antiseptics, medical gases, laboratory and pathology chemicals, radiology solutions, and IV and dialysis fluids. Our product range also includes cleaning and sterilization products, along with maintenance and emergency-use chemicals for institutional requirements.

All products are sourced for consistent quality and dependable availability to support hospitals, clinics, and healthcare facilities with routine and bulk procurement needs.

- **Disinfectants & Antiseptics**
- **Medical Gases**
- **Laboratory Chemicals**
- **Pathology & Histology**
 - **Cleaning & Sterilization**
 - **IV & Dialysis Solutions**
 - **Radiology & Imaging**
 - **Maintenance & Emergency**

Disinfectants & Antiseptics

- 1. Ethyl Alcohol (70%)**
 - 2. Isopropyl Alcohol**
 - 3. Chlorhexidine Gluconate**
 - 4. Povidone-Iodine**
 - 5. Hydrogen Peroxide**
 - 6. Sodium Hypochlorite**
 - 7. Phenol**
 - 8. Glutaraldehyde**
 - 9. Formaldehyde**
 - 10. Quaternary Ammonium Compounds**
-

Medical Gases

- 1. Oxygen**
- 2. Nitrous Oxide**
- 3. Medical Air**
- 4. Carbon Dioxide**
- 5. Nitrogen**
- 6. Helium**

Laboratory Chemicals

1. **Hydrochloric Acid**
2. **Sulfuric Acid**
3. **Nitric Acid**
4. **Sodium Hydroxide**
5. **Ammonium Hydroxide**
6. **Acetic Acid**
7. **Methanol**
8. **Ethanol**
9. **Acetone**
10. **Xylene**
11. **Chloroform**
12. **Phosphate Buffer**
13. **Sodium Chloride**
14. **Potassium Chloride**
15. **Calcium Chloride**
16. **Hematoxylin**
17. **Eosin**
18. **Giemsma Stain**
19. **Gram Stain Reagents**
20. **Wright Stain**

Pathology & Histology

- 1. Formalin (10%)**
 - 2. Paraffin Wax**
 - 3. Xylene**
 - 4. Ethanol Series**
 - 5. Mounting Media**
 - 6. Clearing Agents**
-

Cleaning & Sterilization

- 1. Enzymatic Detergents**
- 2. Peracetic Acid**
- 3. Sodium Carbonate**
- 4. Detergent Powders**
- 5. Sterilizing Solutions**
- 6. Steam Sterilization Chemicals**

IV & Dialysis Solutions

- 1. Sodium Chloride (0.9%)**
 - 2. Potassium Chloride**
 - 3. Calcium Gluconate**
 - 4. Sodium Bicarbonate**
 - 5. Dextrose**
 - 6. Lactated Ringer's Components**
-

Radiology & Imaging

- 1. Developer Solution**
- 2. Fixer Solution**
- 3. Contrast Media (Iodine-based)**
- 4. Barium Sulfate**
- 5. Silver Nitrate**

Maintenance & Emergency

1. Fire Extinguisher Chemicals
 2. Refrigerants
 3. Lubricants
 4. Battery Acids
 5. Water Treatment Chemicals
-

Quality Control

1. Buffer Solutions (pH 4,7,10)
2. Standard Solutions
3. Calibration Gases
4. Reference Reagents
